Abstract	I
Acknowledgement	II
Table of contents	III
List of tables	IV
Chapter 1 Introduction	2
1.1 Statement of the Problems	2
1.2 Objectives	2
1.3 Scope of Study	2
1.4 Definitions	3
1.5 Expected Benefits	3
Chapter 2 Literature Review	4
2.1 Buffalo Population in the World	4
2.2 Thai Swamp Buffalo	5
2.3 Mehsana Riverine Buffaloes	5
2.4 Blood Biochemical Profiles	6
Chapter 3 Research Methodology	12
3.1 Animals Data and Meteorological Data	12
3.2 Animal Husbandry	12
3.3 Diseases and Parasites Control	12
3.4 Sample Collections and Measurements	12
3.5 Statistical Analysis	13
3.6 Duration	13
Chapter 4 Results	14
Chapter 5 Conclusions, Discussions and Suggestions	15
5.1 Conclusions	15
5.2 Discussions	15
5.3 Suggestions	17

Table of contents (cont.)

Table	page
4.1 Comparison on Means \pm SEM values of plasma levels of metabolites and proteins between Mehsana riverine and Thai swamp buffaloes.	14

Acknowledgement

This research would not have been possible without the support of Animal Husbandry and Genetic Improvement Centre. Department of Livestock Development, Buriram Province, Thailand. I am especially indebted to Government officer and their staffs, who have been supportive of animal trials and who worked actively to provide me with the protected academic time to pursue those goals. I am grateful to all of those with whom I have had the pleasure to work during this and other related research. I would especially like to thank lectures and students 'Faculty of Agricultural Technology, Buriram Rajabhat University, Thailand for helping me. Most importantly, I wish to thank my loving and supportive wife, who provides unending inspiration.
